

Alan Whelan

Alan has almost 20 years experience in planning practice in both the public and private sector, providing advice in a range of areas from development appraisal to complex planning applications. He has considerable experience advising on Strategic Infrastructure developments, the co-ordination of Oral Hearings and presenting expert evidence in court. He has specialist experience in large scale infrastructural projects and was the lead planning consultant for Terminal 2 for the Dublin Airport Authority, the Visual Control Tower for the Irish Aviation Authority and DART Underground for Irish Rail.
